June 5: Harlow & District Radio Society Mobile Rally, Village Hall, Magdalene Laver, nr. Harlow, Essex. Talk -in on Top Band will be by G3ERN and on two metres by G3JMA. In addition to events of interest for mobileers, attractions are being arranged for the XYL's and harmonics. Refreshments will be available.

**RadCom June 1960**

Harlow and District -Thursdays. 7.30 p.m.. rear of G3ERN (G. E. Read), High Street, Harlow.

**PW June 1960**

HARLOW AND DISTRICT RADIO SOCIETY

A mobile rally will be held on June 5th at the Village Hall, Magdalene Laver, near Harlow, Essex. In addition to the items of interest to the radio minded other attractions will be arranged to amuse the wives and children. Two stations will be on the air to guide visitors, G3ERN on 160 and G3JMA on 2 metres.

**SWM August 1960**

For the Rally organised by the Harlow & District Radio Society at Magdalen Laver, also on July 3, the attendance in the course of the day was estimated at 300-350 people, there being 120 vehicles in the park by lunch-time. Two control stations were provided by the Harlow group and the events on the ground included a display arranged by the Harlow Society of Model Engineers, and demonstrations of model aviation. In addition to the raffles, there was a balloon race, the results of which may not be known for some time. It was noticed that certain keen Top Band types were buying quantities of balloons to determine the lift that could be obtained for vertical long-wire aerials ! As usual for these Harlow events much of the spade -work was done, and gear provided, by G3ERN, who is himself a well-known " feature " of many Mobile Rallies.

4. G3BMY, Stourbridge M 890

**SWM July 1962**

July 15: Harlow and District Radio Society Mobile Rally, at Magdalen Laver, 4 miles S/E of Harlow, Essex. Top Band talk -in will be by G3LIT. We have no other information, but those wanting further details can apply to: B. H. Wynn, Black Cat, Abbess Roding, Ongar, Essex (Tel. Matching 265).

**SWM August 1962**

Another mobile meeting on July 15 was the Harlow Rally, at Magdalen Laver, also in rather depressing weather - however, 30 mobile -fitted cars came in, and G3LIT/A worked 27 of them on Top Band, and G3NNI/A three on two metres. Various competition events produced prizes for G3NKX, G3PED (lucky numbers); G3KCJ (men's darts); Mrs. G6LL (ladies' darts); G3OJV, G3MAY (frequency estimation); and G3OQT (steady -hand test-whatever could that have been!) G3PUP undertook the onerous task of organising children's sports, and a very successful junk sale was conducted by G3HJL. With the assistance of his xyl, G3ONERan a hot-dog stall; PA music was provided by G2ARN ; and old-timer G6UT was in charge of registration. Harlow club members who assisted in all this were G3IPG, G3JVI, G3NNI, G3PAI, and G3PRN-all (we suspect) cajoled and inspired by G3ERN. In spite of the Wx, it was a happy afternoon for the 250 or so who were there.

**SWM June 1963**

July 7: Harlow and District Radio Society Mobile Rally at Magdalen Laver, Essex. Details from :A. S. Hall, hon. secretary, Harlow D.R.S., 107 Blackbush Spring, Harlow, Essex.

**SWM August 1963**

They had a lovely day at **Harlow** on July 7, with an attendance of 50 mobiles and about 250 people (actually, less than last year), but those responsible think that as an event the Rally was an improvement on previous years. The attractions included a monster junk stall, well patronised, and one very interesting working exhibit was the transmission of speech and music over a modulated beam of light to a range of about one mile-this was put on by two junior SWL members of the Harlow group, Ewan McPherson and John Powell. Needless to say, it completely mystified the non-technical. There was a raffle, and also various spot-prize events. The organisers for the Rally were G3ERN and G3NNI, and the general feeling is that they put on a very good show.

**SWM September 1964**

**September 27:** Harlow and District Radio Society Mobile Rally, at Magdalen Laver Village Hall, near Harlow. Talk -in will be on 160m., by G3ERN/A, opening at 10.0 a.m. A full and interesting programme has been arranged.

**RadCom November 1964**

There have been surprisingly few reports of mobile activity this month, and the only mobile rally of which we have any details was a venture by the Harlow and District Radio Society. Magdalen Laver's isolated village hall, out in the country adjoining Harlow, was, on September 27, the scene of the Harlow and District's annual Mobile Rally, where over 600 people gathered. Of 180 cars which arrived, 60 were equipped for two-way radio communication, and at times mobiles were " queuing" to make contact with the rally station, G3PRN/M, operated by Leslie Cox, Basil Chambers and Robert Frost, G3SZF, the youngest member of the society. Over 50 prizes were donated by the trade, and these were presented to the winners of the various competitions by the society's President, T. A. Johnston, G6UT. Cossor Electronics Ltd., of Harlow, made a substantial contribution to the success of the event by demonstrating for the first time in this country a transistorized Raytheon transmitter-receiver. From the rally's proceeds, the RAIBC will benefit financially by a substantial donation.

**PW November 1964**

HARLOW AND DISTRICT RADIO SOCIETY  
Hon. Sec.: G. O'Donald, Harlow Road, Roydon, Harlow, Essex.  
The Harlow and District Radio Society Mobile Rally was held recently at a village near to Harlow. From 10 a.m. on Sunday, 27th September, mobile visitors were talked -in on 160m by G3ERN to enjoy a full and interesting day of events.

**SWM November 1964**

For the Harlow & District Radio Society's Rally on September 27 last, the talk -in station on Top Band was G3PRN-and here it is being operated by Robert Frost, G3SZF, who is Harlow's youngest member; he is just bobbing on the ripe age of 15 years.

**Harlow** report a very successful Mobile Rally on September 27, with 180 cars in the park, of which 60 were fitted /M; some had come over 100 miles to be at Magdalen Laver for the event. More than 50 donated prizes were handed out by Harlow's president, G6UT, and from the Rally proceeds it was possible to make a substantial donation to the very -deserving R.A.I.B.C. The Club has arranged R.A.E. and Morse classes locally, under G3GRQnd G3KFG, about which information can be obtained from the hon. secretary.

### RadCom February 1965

**Obituaries**

**T. A. St. Johnston, G6UT**

Amateur Radio lost one of its outstanding characters with the passing on December 19, 1964, of Uncle Tom, G6UT.

He first took up transmitting in the early '20s at the age of about 40, and he soon became well known in his locality for his work on Top Band. He taught himself the code as was usual in those days, and all his gear was home-constructed. Later he turned to 40 and 20m DX and became equally well known the world over. In 1928 he became East London Representative, then served on the Council for a year or two, finally to become Vice-President of the Society in 1942.

It was during his leadership of East London that he organized his famous "country weekends" in a cottage in a farmyard in rural Essex. These were supported by a great many amateurs at various times and as a result the idea of NFD was born. More recently, he had become even more well known as a result of his annual "Ham Party" which he held every year from 1947 to the time of his death. Each year his garden and shack were invaded by more than 100 people and his visitors book must bear the signatures of a great many British and Overseas Amateurs. He had a wonderful collection of certificates which had been awarded him from time to time.

He was also well known to many old-timers, through the loyal support he gave to RAOTA. His loss from the Amateur movement will be felt for years to come and he will be mourned the world over.

The funeral of G6UT took place on December 23, 1964, at St. Giles Church, Great Hallingbury, Herts. The RSGB Council was represented by R. C. Hills, G3HRH, and Louis Varney, G5RV. Bill Brigden, G6WU, G3ERN, G3TLJ, G3KPJ and Mrs Butcher, BRS22988 were also present.

We extend our deepest sympathy to his son, daughters, his numerous grandchildren and great-grandchildren all of whom helped so splendidly at his parties.

### RadCom March 1965

The Harlow RS is planning two events towards the end of this year. The first is an exhibition on Harlow Day, or rather weekend (August 28 and 29), sponsored by the local Council, who have allocated over £5,000 in promotion attracting major beat group, firework display, carnival and sporting events on both days. The society will be situated in a large marquee, with its own parking space. The display should be very impressive, as various aspects of Amateur Radio will be exhibited, including members' equipment and /A stations active on most bands. Sunday will also see a mobile rally. The second important event will be the society's annual mobile rally on September 26. The venue will be the same as last year: Magdalen Laver Village Hall near Harlow. Honorary Secretary: G. O'Donald, G3TLJ, "Great East," Roydon Road, Roydon, Harlow, Essex.

### SWM May 1965

**Harlow** are in process of occupying new headquarters rented from the Harlow Development Corporation for their exclusive use-at Mark Hall Barn, First Avenue. Club nights will in future be Tuesday and Thursday, and there will shortly be an official opening ceremony. Much of the club's growth over the past twelve years goes to the credit of G3ERN, who has been elected president of the club. Incidentally, they are applying for the call sign of the late president, G6UT, as a memorial to another keen member and well-known Old -Timer. This is a nice gesture which deserves to succeed.

### PW May 1965

#### HARLOW AND DISTRICT RADIO SOCIETY

**RadCom October 1965**

Harlow and District Radio Society received great local publicity when it operated its exhibition stations with the call-sign GB3HRS, and provided a generous display of members' equipment at "Harlow Day" on August 28 and 29. This event was promoted on a gigantic scale by the Local Council of Harlow New Town.

Over 25,000 attended and many thousands were attracted to the Society's marquee by closed circuit television, ably laid on by members of the British Amateur Television Club. Roding Boys' Society, who camped on the site during the period of the show, under their redoubtable leader, Ken Smith, G3JIX, attracted great attention too.

Many visiting people of standing showed great interest in the "gear" on show and the society's activities, but none more than the Mayor of the London Borough of Barking, W. E. Bellamy, J.P.—a keen short wave listener—who returned later on the Saturday for further informal discussions.

**PW December 1966**

**HARLOW MOBILE RALLY**

On Sunday September 25th, a stream of traffic came in all shapes and sizes to Magdalen Laver. A family saloon with a base loaded whip on the front and a mini -halo on the back. A motor bike with a side car so full of gear it looked like a mobile Jodrell Bank. There was even a mobile on a bicycle, wobbling along the road with a huge whip towering upwards from the back of the saddle. Without a doubt this is the friendliest rally your reporter has been to. The beaming face of Fred *G3TLF* on the front doorway and the eager handshakes from various people who five minutes past had been complete strangers all sum up the Harlow Rally. The organisers covered everything; tea -and -cakes stall for the hungry; lucky dips and raffles for the gamblers; a make-up demonstration by a leading cosmetics house for the ladies; and a grand sale of the most glorious junk. Then there were the kids; the dogs; the yarns of the DX that got away; and the groups of technical boos expounding pet theories. Commercial gear was much in evidence but the antennae were ingenious. *G3CZA/M* had a very lofty whip with what appeared to be a midget basket -wound coil half way up. But perhaps the quaintest was a two foot length of 16 gauge which fed directly into an "S" meter clutched in the hand of an enthusiastic s.w.l., who promptly informed all when the talk -in station was on the air. *G3RVV* reminisced on receivers he built back in the old days, one of which was built breadboard style on a 9 -foot plank of wood!

Hilda circa 1967 (she was still G8BBQ at the time, she received G3YEB in Feb 1969). All the equipment was 'home-brew' in those days, Les, G3PRN, designed and built the Rx with the slide-rule dial. The Tx on the left was apparently built by Colin G3GRQ.

## LETTERS

**No more excuses, please**

When are these types going to run out of excuses as to why they should be exempt from the RAE and the morse test? I refer to Mr. T. Hawker's letter in the July issue, who seems to think that just because he uses radio telephones he should be given an amateur licence. Let's put this in its right perspective, this equipment is all commercial gear which is approved by the GPO and is also crystal controlled. The only qualification to operate it being, the ability to press a button and speak the appropriate language. A child of five could do it.

He asks where is the sense in it? Maybe this question is the answer to why he failed the RAE, he may not have enough enthusiasm. After all the RAE and the morse tests are the only way in which we can weed out the person who just wants a new toy to play with, from the real enthusiast who would be a competent amateur. When I look around at some of the Bedfast Club members, I thank God that I have got all my human faculties as I don't think I would have the drive of these less fortunate types, there are no exemptions from the rule. I have no time at all for the anti -RAE, the anti -morse, and the citizen band brigades, if these chaps were to spend a bit more time studying for these things and less time thinking up reasons why they should be exempt, in no time at all they would be on the air saying how easy it was. No hard feelings old man, best of luck for the next RAE. - R. T. A. Brown, G3TOF, Hon. Secretary Harlow & District Radio Society (Harlow, Essex).

**SWM September 1967**

**September 24:** Harlow & District Radio Society annual Mobile Rally, at Magdalen Laver, near Harlow (NGR. TL.5108), talk -in on Top Band, opening 10.30 a.m., with possible support on two metres. Plenty of parking space, all the usual attractions, and a junk sale. Details: R. T. Brown, G3TOF, 177 Radburn Close, Harlow (23517), Essex.

### **SWM September 1968**

**Harlow** next, where the main effort at the moment is being put into making sure that the Mobile Rally goes well; as it is usually the last one of the season, this year's being set for September 29, lots of people come along for a "last look at the whips" before putting away the /M gear for another year, and so the Harlow chaps try their hardest to make their Rally good. The venue, as ever, is to be Magdalen Laver, and the hon. secretary will gladly give all the details, as he will of the regular meetings on Tuesdays at Mark Hill Barn, Harlow.

### **RadCom November 1968**

#### **Harlow and District Mobile Rally**

For the locals, and indeed the not-so-locals, in the Harlow district this Rally is an eagerly awaited "happening." This year the day was Sunday, 29 September and apart from the odd cloudburst or two during the afternoon the weather played reasonably fair. There are no trade stands at the Harlow Rally. There isn't room. There is, of course a junk sale but of modest proportions. There is a very good Raffle. But the main attraction surely is the fine friendly spirit which pervades the whole affair. We are sure the organizers will not take offence if we say that during the peak hours of the afternoon breathing space was severely limited in the Magdalen Laver Village Hall. They like it that way.

### **SWM November 1968**

Where is he? The two -metre talk -in station for the Harlow Mobile Rally on September 29, seen operated here by G3WOX, with G3WLQ checking the position of a /M contact on the map. About 200 people signed in (including six YL operators), it was a pleasant and enjoyable day for the 400 or so present, and E13 was collected as a donation to R.A.I.B.C.

**Harlow** next, where there has been a lot of work done of late, so that there is now a separate room set up for Morse tuition, enabling a class to go on even though a lecture may be taking place in the main room.
